

TRANSMITTAL

Electronic Version v1.1

Stylesheet Version v1.1.0

Title of Invention	Process For Capturing Heat From Aerobic Compost							
Application Number :								
Date :								
First Named Applicant:	John A. Crockett							
Confirmation Number:								
Attorney Docket Number:								
<p>I hereby certify that the use of this system is for OFFICIAL correspondence between patent applicants or their representatives and the USPTO. Fraudulent or other use besides the filing of official correspondence by authorized parties is strictly prohibited, and subject to a fine and/or imprisonment under applicable law.</p> <p>I , the undersigned, certify that I have viewed a display of document(s) being electronically submitted to the United States Patent and Trademark Office, using either the USPTO provided style sheet or software, and that this is the document(s) I intend for initiation or further prosecution of a patent application noted in the submission. This document(s) will become part of the official electronic record at the USPTO.</p>

Comments Searching existing patents, found 111 "matches" when using the combination of key words, "Compost" + "Heat Exchanger". Examined all 111, and found none to function as the invention claimed herein. The Inventor is an active composter with over 7 years experience working with forced aeration, designing aeration systems, including computerized temperature monitoring, and experiementing with negative pressure and sustained hot off-gas from the compost
